

K33 LYPOMIN-LV™

Lipotropic Factors for Healthy Lipid and Liver Metabolism

BENEFITS OF PRODUCT

- Provides nutritional compounds that have lipotropic properties.
- Offers nutritional support that may help normal fat distribution.

USE OF PRODUCT

Lipotropic factors include nutrients that may help normal distribution and metabolism of fat in the liver, thus contributing to the maintenance of a healthy liver. These nutrients promote the synthesis of phospholipids, which are the building blocks of the lipoproteins used to transport lipids out of the liver.

OTHER PRODUCTS TO CONSIDER

Other formulas can be used in conjunction with Lypomin-LV™ to support the immune system. X-Viromin™ (K31) provides nutrients and herbs that have immune-enhancing qualities. OxiCell® (K22) is a liposomal delivery form of glutathione and SOD that may provide immune modulation activity and protective antioxidants. Metacrin-DX™ (K10) provides co-factors, amino acids, and botanicals that support healthy liver metabolism. Bilemin™ (K11) provides botanicals that stimulate bile synthesis and elimination.

DIRECTIONS

Take 1-3 capsules, 3 times a day, or as directed by your healthcare professional.
